INTERVIEW SUMMARY

Applicant's representative would like to thank Examiner Marcelo for extending him the courtesy of a telephonic interview on August 17th, 2005, to discuss this case. The following recordation of the substance of the interview is believed to be complete and proper, as required by MPEP 713.04. It is requested that the Examiner notify the undersigned if the Examiner believes this Interview Summary contains any material inaccuracies or if the Examiner believes this Summary is otherwise not complete and proper.

Interview participants: (1) Examiner Marcelo; and (2) Applicant's attorney, Matthew Graham.

Claims 1, 14, and 27 were discussed during the interview.

The following prior art was discussed during the interview: (1) U.S. Patent 3,613,919 (Ceepo).

Agreement was reached during the interview.

The Examiner was given authorization to include "having a straddle-type seat" after the "chassis" in claim 14, line 2.

The general thrust of the principal arguments made during the interview were: (1) Ceepo does not disclose an all terrain vehicle having multiple winches, but rather discusses a heavy duty automotive truck.

No other pertinent matters were discussed during the interview.
